Before the court are the administrative motions filed by plaintiffs in the above-entitled related actions seeking to extend the discovery deadline. The motions are GRANTED as follows.

With regard to the Astiana case, in view of the change in the status of the case (the

1 denial of the motion for class certification), a 60-day continuance of the discovery deadline
2 is approved. The parties shall meet and confer immediately to determine the impact of the
3 class certification denial on the remaining discovery, and shall then complete discovery by
4 the end of the 60-day period. The dispositive motions deadline is also continued 60 days.
5 The court will address defendant's request for relief from Magistrate Judge Laporte's
6 discovery ruling in a separate order.

7 With regard to Thurston/Corriette, a 60-day continuance of the discovery deadline is
8 approved. At the conclusion of that period, a further case management conference will be
